NOTE HOW THE LINE OF THE INNER SOLE FOLLOWS THE CURVE OF THE FOOT-SOLE. THIS IS AN EXCLUSIVE RALSTON IDEA. THE CONSTRUCTION OF AN ANATOMICAL LAST BY WHICH THE FOOT RESTS ON A MOULDED FOUNDATION, ADJUSTED TO NATURE'S CURVES. MORE COSTLY IN MAKING, BUT IT GUARANTEES INSTANT EASE—THE OLD SHOE FEELING WITH THE NEW SHOE APPEARANCE.

## Seeing is Believing

Some few, unthinking people may consider that big Green Tag Poster of ours, a bit sensational—may even confound it with other "flyers," in the rather overdone "sale" line of Albuquerque, but after those people see the goods displayed in our windows, they will no longer doubt—for what the eye sees the heart believes.

Why are we selling \$9 outing suits for .....\$4.75  
We are selling \$12 outing suits for .....\$8.75  
Why are we selling \$16 business suits for .....\$11.75  
We quote \$3 Knox Straw Hats at .....90c  
We quote 75-cent Neckties at .....30c  
We quote 25-cent Hose at .....12 1/2c  
See our 50-cent Suspenders at .....25c  
See our \$3 Trousers at .....\$1.90  
See our \$5 Boy's Suits at .....\$3.90

You naturally ask, why these reductions? Here it is in a nut shell: It pays us to clean out all of this season's goods and start with a fresh stock next spring. It pays us to turn over this money two or three times instead of having it tied up in old stock and what is apparently a loss is in reality profitable business for us.
